COMMITTEE OF THE WHOLE

Moved by Sloan, seconded by Kolb to convene as a Committee of the Whole to discuss the procedure for the acquisition and/or demolition of the former St. Mary's Memorial Hospital at 1208 Oak Street.

City Engineer T. Pinion explained that this building has become a nuisance over the past few years. The City is constantly taking care it by removing snow and ice from the sidewalks, mowing the lawn, and securing the building. It is clear that no one is going to step up to take care of this building. The City has already developed a concept plan which is predicated on this sites redevelopment with multi-family residential property. The cost estimate of \$500,000 is still accurate. The money is included in this year's budget under other revenue sources, to possibly include grant money and money from TID 6. In order to be eligible for grant money, the City of Baraboo would have to take ownership of this property. We can petition the County to take the property; however, they have 180 days to "gift" it back to the petitioning municipality at zero cost. The total amount that has accumulated to date in delinquent tax payments, interest, and penalties is roughly \$110,000. At this point, the City is looking for direction on this.

Ald. Kolb questions if Baraboo Luxury Apartments still owns this property. T. Pinion confirms that they no longer own the property as the LLC has been administratively dissolved. Our two options are to petition the Circuit Court for title or less expensively, we can petition the County to take the property as a contaminated property. Once they do that, they can "gift" the property back to us.

Ald. Wedekind would like to see something done with this now; it's not going to go away and we should act before TID 6 closes in 2023.

Ald. Sloan questions the additional financial risks of taking ownership? T. Pinion advises the total costs to be \$500,000 if we don't receive any grants; we've got the money from TID 6 to pay for this and we would potentially have 5 lots to sell. Based on the historical use, there is definitely the potential for contaminated ground. Hopefully, we would be able to obtain a grant for the cleanup of any contaminated soil. The \$500,000 includes asbestos testing, asbestos abatement, demolition, and grading of the site.

Ald. Kent questions how much of the property does this building sit on? The building is sitting on approximately 3 city lots.

Ald. Petty feels that anyone looking to rehabilitate this property will be looking for a significant amount of funding through the City to help offset their costs.

The Council is in agreement for City staff to pursue our options with this property.

Moved by Kolb, seconded by Wedekind to reconvene into regular session.

ADMINISTRATOR AND COUNCIL COMMENTS

Adm. Downing noted that the 2020 Census is coming soon. Please watch your mail for the questionnaires. Every person that does not complete the census is \$3,200 in Federal dollars that the City does not receive.

- Purchase of 2020 Freighliner SD114 chassis and a 2020 Henderson Body/Universal Truck Plow Equipment for \$170.479.00 - City Engineer T. Pinion stated that this is a budgeted item that is about \$5,000 more than budget estimates: there is sufficient money in the equipment replacement fund to cover this. Some of the increases are recommendations from the new mechanic. The City also purchased a new chipper, demonstration model, for approximately \$25,000 less than was expected; the \$5,000 increase for this truck will be taken from these savings. Traditionally, the plow truck that is being replaced will go to the Airport and the truck being used at the Airport will be sold; proceeds from this sale will be divided. He said that the Chamber is proposing to remove all existing wayfinding signage and provide 30 new signs, 17 of which would be located within the City. It was moved by Kolb, seconded by Wedekind to approve the design and placement of new Wayfinding Signs. Motion carried unanimously.
- Review and recommend adopting certain Sections of Chapters 940, 941, 942, 943, 944, 966, and 961 of the Wisconsin State Statutes by reference in Chapter 9 - Orderly Conduct of the City's General Code of Ordinances - Chief Schauf said that when police are investigating incidents, they can take enforcement as an ordinance violation, which is the City Code, or they can take enforcement under criminal statutes. He said that the burden for proof for criminal is beyond a reasonable

doubt and that sometimes can be difficult to achieve, whereas, for a City ordinance violation the burden of proof is clear and convincing. He said by having these offenses added to the City Code would give the department the ability to charge some of these offenses as ordinance violations without having the higher burden of proof. He said additionally, one of the options that this provides is the ability to keep kids and/or first time offenders out of the criminal justice system, but hold them accountable by issuing charges appropriately, and it would then be handled by the City Attorney's office, who then has a number of options through the prosecution that they can handle. He said it this could be a way to hold a first time offender accountable, but not have them put into the criminal system as an offender. He said that the Statutes that are in the packet and being recommended for adoption by the Code are offenses that the police department commonly deals. It was stated that these offenses would all be under forfeitures and be at the discretion of the officer. Discussion then took place regarding non-payment of forfeitures. It was moved by Kolb, seconded by Wedekind to recommend adopting certain sections of Chapters 940, 941, 942, 943, 944, 966, and 961 of the Wisconsin state Statutes as presented. Motion carried unanimously.

- f. Review and recommend approval of a Memorandum of Understanding for Mutual Aid and Fire suppression services between the Baraboo Fire Department and the Wisconsin Department of Natural Resources for compensation for fishing forest fires or prescribed burn assistance - Kevin Stieve presented the information to the Committee. It was moved by Kolb, seconded by Wedekind to recommend approve of MOU between the Baraboo Fire Department of the Wisconsin DNR as presented. Motion carried unanimously.
- Review and recommendation to proceed with acquisition and or demolition of the former St. Mary's Ringling Memorial Hospital at 1208 Oak Street - Pinion presented the background stating that this property has been a thorn for the Police Department and the City for several years. He said that there is money in the 2020 budget to take care of this public nuisance. He said that there are many steps to go through and is not sure that it will be done in this calendar year. He said that with the Council's blessing, the City would begin the process. It was moved Kolb, seconded by Wedekind to recommend proceeding with the acquisition and/or demolition of the property at 1208 Oak Street. Motion carried unanimously.

COMMITTEE OF THE WHOLE

Moved by Wedekind, seconded by Kent to convene as a Committee of the Whole to discuss the addition of a policy to the <u>Employee Policy and Procedure Handbook</u> authorizing the City to continue to pay and provide benefits to City employees who are ordered to stay home from work during large-scale medical events in order to prevent spreading the illness.

Adm. Downing explained that the main reason for presenting this change to the Employee Handbook is to give confidence to the employees that they would still be paid during an emergency. If for some reason the Mayor declares an emergency and we have to close the City down, we want to make sure that our employees get paid. This policy will also offers time and half pay to our volunteer fire fighters to encourage them to respond to calls.

Ald. Kolb questioned that the Emergency Declaration allows the Common Council to pass a resolution retroactively activating this policy within three months after the termination of the declaration. Atty. Truman explained that the Common Council could activate this policy at a later date to ensure that employees get paid.

Ald. Plautz questioned if the public works department is considered essential. Adm. Downing explained that essential employees will be determined by the Department Head. Non-essential employees could be deployed to another department.

Ald. Plautz also questioned a Federal Paid Leave Policy. Adm. Downing noted that the Federal Paid Leave policy has not yet been approved. Ultimately Federal Policy would trump any policy created by the City.

Ald. Petty questioned the policy procedures for employees that work remotely from home. Adm. Downing advised that we are currently working on that policy. We are currently working on different software so that if this emergency extends for a long period of time we have the ability to do video or audio meetings.

Ald. Kolb questioned if non-essential employees are redeployed to other departments, does that need to be included in the policy? Atty Truman advised that the City Administrator can assign employees to a job that is suitable for them. This could be a case by case analysis.

Moved by Kolb, seconded by Petty to reconvene into regular session.

The Emergency Management Workgroup meets daily to address any issues from the prior day, follow up with ongoing issues and plan for future issues. This group initially met face-to-face, but transitioned to virtual meetings using Microsoft Teams to maintain compliance with the Governor's Stay at Home Order and to continue practicing social distancing.

Information releases have been timely and have been posted on the City's Webpage, Facebook page, Police and Fire Department's Facebook page as well as using Nixle. There was a minor issue with the City's Webpage, but that has been corrected with our vendor.

Coordination with Community Partners

The Emergency Management Workgroup has virtually met weekly with the President of St. Clare Hospital to exchange information. A traffic control plan has been developed in conjunction with the hospital and police department staff if the need arises.

The Police Department has assisted the Baraboo School District, ADRC and other groups in setting up food delivery sites and actual delivery of food for residents.

Sauk County Emergency Management and Public Health

We are in constant contact with Sauk County Emergency Management and Sauk County Public Health. We receive regular situation reports from them and meet virtually twice weekly for updates.

Sauk County Emergency Management has assisted in obtaining personal protective equipment for First Responders and Election Workers.

Additional Activities

With the election postponed, City Hall will be limited to drive up business only. The doors will be locked with signs indicating where to go for service. The City Staff will still strive to provide exceptional customer service while also trying to flatten the curve of this pandemic.

Tornado and Severe Weather Awareness Week

April 13 to 16 is Tornado and Severe Weather Awareness Week. The one thing the COVID-19 Pandemic did not do is cancel or postpone the weather. We must be prepared for the severe weather season.

There will be a Virtual Tornado Drill at 1:45 p.m. on April 16. I would encourage all to review their severe weather plan with their family while abiding by the Stay at Home Order.

As we continue to follow the Stay at Home Order and continue with essential services, there will no doubt be more challenges to face. Thus far, City Staff have done a great job of meeting those challenges.

This pandemic brings a new normal. As we work through this process, I would encourage everyone to exercise patience and cooperation.

Please feel free to e-mail or call with questions.

BARABOO FIRE DEPARTMENT REPORT

I am including the fire department report the Public Safety Committee received so you can maintain situational awareness of fire department operations.

Fire Department Operations

As far as the fire department, the following is taking place:

- 1. An operations plan has been created for personnel to follow when responding to incident calls to enhance protection and lessen exposure.
- 2. Career Staff have been working 12 hour days and are assigned all of the low acuity incident responses to limit exposure of fire department personnel.
- 3. 12 hour shifts have been created for the hours of 6:00 p.m. to 6:00 a.m. for the Paid-per-Call Staff to sign up for. Weekend shifts are broken into 12 hour blocks as well. A free online scheduling application was found by Asst. Chief Willer and has been used for scheduling people. It has worked great and fire personnel are stepping up and filling those shifts.
- 4. Fire personnel are compensated for these shifts
- 5. We have also had a few Paid-per-Call Staff come in during the day to work at the station and be available for incident responses.
- 6. All of our group training has been put on hold to comply with the Governor's Stay at Home Order. Asst. Chief Willer is finalizing a web based training program for our fire personnel and should be released shortly.
- 7. Fire inspection duties have been suspended due to many businesses being closed and to also limit exposure to personnel.

8. The disinfecting of the fire station has been stepped up. A daily morning disinfecting list has been created and is completed every work day and after incident calls.

Monthly Report

As part of the upcoming Council Meeting Packet you will receive the monthly report from March for the Fire Department. Incident responses have decreased since the issuance of the Stay at Home Order.

New Burning Ordinance

One thing we have dealt with since the Stay at Home order is educating about the new burning ordinance. With the decent weather, people have been out completing yard work and lighting up leaf piles. Those people have been educated. We have also received telephone inquiries about burning as well. The DNR has suspended burning permits for the unincorporated areas. An article appeared in the City's Newsletter and the City of Baraboo's Website has been updated with the correct information on the burning ordinance change. We will continue with the educational process using social media and personal contact.

Background: In order to be in full compliance with State Law, the City recently amended Chapter 12, Intoxicating Liquor and Fermented Malt Beverages. Because of this change, the Administrative Committee is now required to review all Operator License applications and make a recommendation to Council.

The Police Department will complete a background check prior to the issuance of all Operators License.

An Operator License, also known as a "Bartender's License", is valid for no more than a 2-year period, expiring on June 30th. A Conditional Operators License is valid for a period of one year, expiring on June 30th. A Temporary Operators License is for an event and valid for no more than 14 days.

The Operator Licenses listed below were recommended to Council for approval at the April 6, 2020 Administrative Committee meeting.

RESOLUTION NO. 2019- Dated: April 14, 2020

The City of Baraboo, Wisconsin

Background:

City Ordinance 3.05, Changes in Budget states, "The amount of the tax to be levied or certified, the amounts of the various appropriations, and the purpose thereof shall not be changed after approval of the budget except by a 2/3 vote of the entire membership of the Council pursuant to §65.90(5), Wis. Stats. Notice of such transfer shall be given by publication within 10 days thereafter in the official City newspaper."

Therefore, the City is required to notify the citizenry through publication in the City's official newspaper about the supplemental budget amendments. The State Statute requires publication to happen within ten (10) days upon Council approval of said amendments.

The City's publication process is to identify budget amendments in the fiscal commentary section of resolutions when spending authorizations are granted. Therefore, the City Council could approve budget transfers as often as every meeting. The City satisfies the legal requirement of publication, by publishing budget amendments after the Finance Committee and Common Council approves the listing.

Comments: Budget amendments, that are budgetary transfers, are budgeted expenditures. Budget amendments, that are supplemental, are not budgeted. The 2019 CDA Budget provides for publishing amendments.

Resolved, by the Common Council of the City of Baraboo, Sauk County, Wisconsin:

That the following budget amendments are authorized:

Finance Department Memorandum

To: Kennie Downing

From: Cynthia Haggard, Director of Finance,

Date: April 14, 2020

Re: Budget Amendments

Background:

City Ordinance 3.05, <u>Changes in Budget</u> states, "The amount of the tax to be levied or certified, the amounts of the various appropriations, and the purpose thereof shall not be changed after approval of the budget except by a 2/3 vote of the entire membership of the Council pursuant to §65.90(5), Wis. Stats. Notice of such transfer shall be given by publication within 10 days thereafter in the official City newspaper."

Current:

Budget amendments are typically presented to the Finance/personnel Committee which are then forwarded to the Common Council for approval the same night. This process is a quarterly process.

Recommendation:

The Finance Director will continue to closely work with Department Heads and communicate budget amendments to the City's Finance/Personnel Committee and Common Council on a quarterly basis. The practice for the Library, Business Improvement District, Community Development, Baraboo-Dells Airport, Parks and Recreation, and UW-Baraboo/Sauk County is that their respective budget amendments will need to be presented to their Boards and/or Commissions before the amendments are presented to the City Council as part of the overall city-wide budget amendment process.

In order to make changes to the budget, a <u>Notice and Resolution to Amend Budget</u> must be adopted. The resolution must summarize the appropriation changes for each spending classification and identify from where the sources of funds are coming.

Two categories of budget amendments are identified:

- 1. Budgetary Transfers
- 2. Supplemental Budgets

Budgetary Transfers

The budgetary transfer will have a source of funds of either 1) Reduction in Other Appropriation within Same Fund, or 2) Transfer from Other Fund.

Reduction in Other Appropriation within Same Fund - Essentially transferring budgeted and appropriated monies between spending category within same fund.

<u>Transfer from Other Fund</u> - A transfer consists of moving budgeted and appropriated monies from one or more spending categories in one fund to one or more spending categories in another fund.

Supplemental Budgets

A supplemental budget shall be adopted to account for revenues in excess of the budget and to authorize expenditures of additional funds. Whenever the City receives unanticipated revenues, or revenues not assured at the time of the adoption of the budget, a supplemental budget and appropriation shall be enacted to authorize the expenditure of these unanticipated funds. The supplemental budget will have a source of funds of either 1) Fund Balance Applied, or 2) New Revenue.

<u>Fund Balance Applied</u> – In this case, the City is utilizing available fund balance to cover actual net expenses exceeding revenues. This situation is caused by expenses coming in higher than budget, or revenues coming in lower than budget.

<u>New Revenue</u> – In this case, the City has received funds that were not planned and wishes to apply those funds to expenses in the current year - not in the original budget.

The City of Baraboo, Wisconsin

Background: The City last updated its Stormwater Quality Management ("Master") Plan in 2007. That plan had only a target of meeting the 2013 goal of 40% TSS reduction for its Municipal Separate Storm Sewer System (MS4).

The recent development of the Wisconsin River Basin (WRB) Total Maximum Daily Load (TMDL) has identified total suspended solids (TSS) and phosphorus (TP) as pollutants of concern causing impairments to the Wisconsin River. The City has received the new waste load allocations (WLAs) for these pollutants of concern as part of the recently renewed General Permit for MS4 Communities to Discharge Stormwater to waters of the state – WPDES Permit No. WI-S050075-3.

The first step toward complying with these new permit requirements is to contract with an engineering firm to update the Stormwater Quality Management Plan to determine the most practical and economic ways to reduce the pollutants from stormwater discharges. The 2020 Stormwater Utility Budget includes funding for this Plan update.

To help defray the cost of the Stormwater plan update, the City applied for an Urban Non-Point Source Stormwater Planning Grant in 2019. The Wisconsin Department of Natural Resources (WDNR) subsequently awarded the City a \$31,000 grant to update the SWQM Plan. (The total project budget was estimated at \$88,000.)

In February, an RFP was issued to seven consultants; however, only two Proposals were received. Following is a summary of the Estimated Fees to Update the Stormwater Quality Management Plan:

MSA \$75,536SEH \$88,771

After reviewing the Proposals, staff agreed that MSA would best meet our needs and recommend awarding a contract accordingly.

The Public Safety Committee reviewed this matter at their April 13th meeting and unanimously recommended approval to contract with MSA.

Resolved, by the Common Council of the City of Baraboo, Sauk County, Wisconsin:

Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement. Nothing contained in this paragraph shall prevent MSA from employing such independent professional associates and consultants as MSA may deem appropriate to assist in the performance of services hereunder.
- 9.5 Nothing under this Agreement shall be construed to give any rights or benefits in this Agreement to anyone other than OWNER and MSA, and all duties and responsibilities undertaken pursuant to this

Agreement will be for the sole and exclusive benefit of OWNER and MSA and not for the benefit of any other party.

- 9.6 This Agreement (consisting of pages 1 to 4 inclusive) together with Exhibit SR-A constitute the entire Agreement between OWNER and MSA and supersede all prior written or oral understandings. This is EXHIBIT SR-A to Agreement Between Owner and Engineer for Study and Report Professional Services dated March 27, 2020.

Further Description of Basic Services, Duties of Owner, Method of Payment and Related Matters

This is an exhibit attached to and made a part of the Agreement dated <u>March 27, 2020</u> between <u>CITY OF BARABOO</u> (OWNER) and MSA PROFESSIONAL SERVICES, INC. (MSA) for study and report professional services.

1. The Basic Services of MSA as described in Section 1 of said Agreement are amended and supplemented as follows:

Presented here is MSA's proposed detailed scope of work. This work plan is inclusive of all elements identified in the City's Request for Proposals.

TASK 1 – PROJECT MEETINGS & PROJECT MANAGEMENT Meetings

MSA will conduct four (4) meetings during the course of the project: a kickoff meeting, interim meeting with the WDNR, a meeting to review the draft report and a presentation meeting reviewing the results of the updated plan to the Baraboo City Council.

TASK 2 - BASELINE WATER QUALITY MODEL

MSA will create a WinSLAMM v10 water quality model in order to determine the amount of Total Suspended Solids (TSS) and Total Phosphorus (TP) generated within the City and removed by the City's stormwater management system and to provide a basis for developing additional BMP strategies. Model construction will be achieved by the following subtasks.

Subtask 2.1 - Revise Water Quality Database

MSA will obtain from the City existing GIS data describing land use, watersheds, and drainage infrastructure. MSA will subdivide city-provided watershed maps to determine drainage areas to up to 40 existing and 20 alternative future structural BMP locations.

Subtask 2.2 - Conduct Infiltration Assessments

MSA will conduct up to eight (8) double ring infiltrometer testing within the vegetated drainage systems (swales) serving City streets. MSA will conduct abbreviated two-hour infiltration tests as described/endorsed by the WDNR at the 'MSA roundtable' held in January 2011.

Subtask 2.3 - Create City-Wide Water Quality Model

MSA will create a WinSLAMM v10 water quality model developed according to the most recent WDNR guidance document regarding application of water quality models for TMDL compliance. Modeling will be completed to determine the amount of Total Suspended Solids (TSS) and Total Phosphorus (TP) generated within the City and removed by the City's stormwater management system.

Baseline/"No Controls." MSA will develop a WinSLAMM water quality computer model representing the City's existing land use conditions to determine the baseline pollutant loading from land uses within the City limits. This activity will determine the actual load generated within the study area (which includes areas outside the City that drain through the City's separate storm sewer system), within the City limits, and within the 'regulated' area of the City.

Existing Controls. MSA will identify the location and characteristics of existing publicly and privately owned infrastructure, and the nature, location, frequency and timing of current municipal "housekeeping" practices (e.g., street sweeping) that may contribute towards the TSS reduction target. Using this information, MSA will modify the baseline model to determine how much TSS and TP reduction existing infrastructure and housekeeping practices can be credited. This task will determine the current level TSS and TP reduction within the City.

MSA will evaluate up to 40 existing structural BMPs under this work task.

The existing BMP evaluations will also include the City's current catchbasin cleaning and street sweeping programs. Additionally, the existing BMP evaluations will include assessment of City streets served by vegetated swale drainage systems.

TASK 3 - DEVELOP ALTERNATIVE BMP STRATEGIES

MSA will develop alternative solutions to improve total suspended solids and total phosphorus pollutant reduction. Where possible, alternative future BMPs evaluated as part of this project will incorporate infiltration practices as this is the most effective way to achieve high levels of TP reduction. Development of these solutions will be achieved by the following subtasks.

Subtask 3.1 - Conduct Water Quality BMP Alternative Analysis

MSA will identify sites for installation of new water quality treatment facilities and will evaluate each site (according to available space and tributary area) for its ability to reduce TSS and TP loads to waters of the state. Sites with comparatively higher reduction rates will be further evaluated to determine approximate construction costs. Sites will be prioritized according to cost-benefit ratios and ranked for construction sequencing.

MSA will also evaluate the effectiveness of increased frequency of the City's street sweeping practices. We will also evaluate the effectiveness of implementing parking controls as these practices can almost double the effectiveness of sweeping efficiency.

MSA will evaluate up to 20 alternative future BMP locations under this work task.

Subtask 3.2 - Prepare BMP Concept Designs

MSA will develop preliminary concept designs for purposes of identifying BMP footprint and basic geometry for determining land acquisition requirements and construction quantities. Concept plans will indicate potential permitting and constructability issues including proximity to wellhead protection areas, potential groundwater contamination, and areas of high groundwater as well as maps of wetlands and wetland indicators.

Subtask 3.3 - Prioritize Recommended Improvements

Prepare BMP Cost Estimates. MSA will prepare preliminary construction cost estimates for each BMP. Cost estimates will include major elements include property acquisition, earthwork, storm sewer modifications, and site restoration. Allocations for additional site investigation (geotechnical, wetland delineation), engineering design, and contingency will be included.

Develop Priority Ratings. MSA will determine the cost-benefit ratio of each alternative water quality management facility and will prioritize each BMP according to its rank.

TASK 4 - PREPARE FINAL REPORT

MSA will prepare a report summarizing the activities conducted during this study. The report will include maps, figures, and text documenting the significant finds of field investigations, modeling studies, and alternatives that could feasibly be implemented by the City. Final report will include information that quantifies how project implementation is projected to decrease storm water impacts on state waters.

TASK 5 - ORDINANCE REVIEW

MSA will review the construction erosion control ordinance and post-construction stormwater management ordinance that the City adopted in 2015. This task is intended to ensure that the current City ordinance contains appropriate policies and language from the Wisconsin DNR's recently revised model ordinances and are in compliance with NR 151.

The City of Baraboo, Wisconsin

Background: On March 3, 2020, the State enacted Wisconsin Act 166, which permits a governing body to authorize a designated municipal official to issue alcoholic beverage operator's licenses (a/k/a bartender licenses), including temporary operator's licenses and provisional licenses, so long as the authorization is codified in ordinance.

With this law change, it is recommended that the Common Council amend the City Code to authorize the City Clerk to issue operator's licenses, including temporary and provisional licenses, so long as the applicant meets all of the minimum legal requirements (background check, training, age, etc.). The Council, by way of the Administrative Committee, will continue to review any operator's licenses that are not automatically granted by the Clerk.

The proposed change was reviewed by the Administrative Committee on April 6, 2020, where it was unanimously recommended Council adopt the revisions.

The City of Baraboo, Wisconsin

Background: The City of Baraboo has a Sidewalk Policy, which is an appendix to Chapter 8 of the City Ordinances. The Policy contains financial provisions for the payment of special assessments for new sidewalk, including a provision for financial hardship. In February, 2019, the Public Safety Committee reviewed this specific hardship provision and recommended it be revised; however, an Ordinance approving their recommendation has yet to be considered by the Council.

Following is the recommended revision that was affirmed by the Public Safety Committee at their April 13th meeting.

The amendment of the Sidewalk Policy, an addendum to Chapter 8 of the Municipal Code, within the Municipal Code of the City of Baraboo.

THE COMMON COUNCIL OF THE CITY OF BARABOO, WISCONSIN, DO ORDAIN AS FOLLOWS:

1. Appendix to Chapter VIII - City of Baraboo Sidewalk Policy of the Municipal Code of the City of Baraboo is hereby amended to read as follows:

APPENDIX TO CHAPTER VIII - City of Baraboo Sidewalk Policy Revised September 2017 April 2020

Purpose. This policy is intended to establish guidelines for the installation of new sidewalks and the replacement of existing sidewalks in the City of Baraboo and to document the methodology to be used to assess the costs associated with new sidewalk construction to the abutting property owner.

Except as otherwise stated in this policy it is the goal of the City to have curb, gutter, and sidewalks,, on all existing and future streets for the benefit of the health, safety, and welfare of the citizens. Recognizing that neighborhoods change over time, the intent of this Policy is to promote safety, sociability, community, connectivity, and equilibrium throughout the City. The City of Baraboo is designated as an ecomunicipality and as such, is committed to being a walkable community.

Procedure - New Sidewalk Installation. New sidewalk installation shall be coordinated by the City Engineer as directed by the Public Safety Committee and/or City Council. Locations for new sidewalk that will be installed entirely independent of any street construction work shall generally conform to the City's 1999 Sidewalk Planning Study unless special circumstances exist as determined by the Public Safety Committee. New sidewalk projects should be planned for street segments that are ranked in the top 25% of segments that do not have sidewalk and adjacent segments on a particular street should be grouped together rather than adhere to the strict priority ranking from the 1999 Study.

In addition, new sidewalk shall also be installed along streets that are reconstructed where no sidewalk previously existed unless special circumstances exist as determined by the Public Safety Committee.

Notices shall be mailed to property owners along streets slated to receive new sidewalk. This notice shall serve to notify the property owner that sidewalk will be installed and that assessments shall be levied against abutting properties. Special Assessment procedures shall conform to City Ordinances and applicable State Statutes.

As provided by City Ordinance, the abutting property owner has the option of installing their own sidewalk or hiring their own contractor to install sidewalk along their property. Any property owner choosing to install their own sidewalk or hire their own contractor must sign an agreement with the City establishing the guidelines for construction. Any property owner choosing to install their own sidewalk or hire their own contractor assumes full responsibility for all costs associated with the sidewalk installation with the exception of the credit available to the property for additional costs for special provisions.

<u>City Owned Property</u>. Whenever sidewalks are constructed on a street, all city owned parcels contiguous to the project will have sidewalk installed.

<u>Building Construction</u>. Sidewalks must be installed prior to an occupancy permit being issued for all new building construction and when there have been improvements to an existing building by 50% or more of the current or equalized value for the structure. Structures receiving occupancy permits between November 1st and May 30th of the following year shall be required to have sidewalks installed by the following June 30th.

New Subdivisions. Sidewalks shall be installed as provided in the Subdivider's Agreement.

Subdivider agrees to construct and install, at Subdivider's sole expense, all required sidewalks in accordance with the City's sidewalk standards and specifications. Sidewalks shall be constructed on both sides of each street within the Subdivision. All sidewalk construction within the Subdivision must be completed within three years of the date of the recording of the final plat of the Subdivision or the date of the execution of this Agreement, whichever occurs first. In all cases, sidewalks must be constructed for each individual lot within the Subdivision before an occupancy permit will be issued for said lot and in all cases all sidewalks within the Subdivision shall be completed within the three-year period stated herein. Subdivider agrees that upon completion of the sidewalk construction in accordance with this Agreement, Subdivider shall formally notify the City Building Inspector and request an inspection thereof. Upon such notification, the City Building Inspector shall make an inspection of the completed sidewalk. All sidewalks in the Subdivision shall be subject to acceptance of ownership and dedication and to the letter of credit provisions.

<u>Procedure–Sidewalk Replacement</u>. As provided by City Ordinance existing sidewalks in the City shall be inspected at least once every eight years. The City is divided into districts to facilitate the orderly inspection and repair of sidewalks.

As a guideline, it is the City's goal to endeavor to replace sidewalks if there are cracked or broken stones, spalled surface conditions, ponding or icing conditions or settling or heaving so as to cause a differential in joint elevation of 3/4 inch from one stone to the next.

Sidewalks required to be replaced will be marked by City Engineering Department staff.

Sidewalks marked for replacement shall be completely removed and replaced or repaired as deemed appropriate by the City Engineer.

Design Standards. Sidewalks shall be 5' wide and constructed of concrete in accordance with the City Specifications for Concrete Sidewalks as adopted by the Public Works Department. Sidewalks shall typically be installed on street right-of-way six inches from the property line. The sidewalk specifications for a particular project may require the removal of trees and landscaping encroachments; however, recognizing the City's Tree City USA designation, special effort will be made to save mature trees that are in very good or excellent condition. In situations where building encroachments or significant tree growth or other special circumstances exist, the sidewalk may be installed further from the property line and the width may be reduced to 4'. An effort shall be made so that both the width and alignment generally conform to other sidewalks in the area.

Sidewalks shall be installed through driveway sections to provide a uniform walking section and appearance.

Certain sidewalk projects may require the construction of walls and other improvements.

The City Engineer shall be notified and an inspection performed prior to pouring the sidewalk to approve the sidewalk location, grade line and forming.

Assessment of Costs. Costs for new sidewalk construction shall be assessed against abutting properties on a front foot basis. The assessed costs shall be calculated by combining the concrete costs with costs for clearing and grubbing of trees and brush, excavation and preparation of the grade, sub-base material, and turf restoration. This combined cost will be calculated on a square foot basis which will be multiplied by the sidewalk width to determine the front foot assessment cost.

Driveway restoration as required due to the installation will not be assessed provided the driveways are restored using similar materials to those existing prior to sidewalk installation. Enlargements or upgrades to the existing driveways shall be assessed at cost.

Carriage walks will be replaced at the owners request and will not be assessed against the abutting property provided the carriage walk is restored using similar materials to those existing prior to its removal. Enlargements or upgrades to the carriage walks shall be assessed at cost. A carriage walk is defined as a sidewalk located in the right-of-way, perpendicular to the street, between the curb and the sidewalk, but excludes curb ramps or sidewalks located at an intersection.

Additional Costs for Special Provisions. The hilly terrain in the City of Baraboo often requires that retaining walls, steps or other special provisions be constructed as a part of the sidewalk installation. To protect the property owner against the high cost of these special provisions, the City of Baraboo agrees to limit the total cost of the special assessment for sidewalk against any single property to 1.75 times the cost of the total sidewalk assessment for the parcel.

In the event that the property owner chooses to install the sidewalk and special conditions exist such as retaining wall construction, the property owner is eligible for a credit to apply against the cost of this added construction. The credit is calculated by multiplying the cost of the sidewalk assessment for the parcel (had the City completed the work) by 1.75 and subtracting from that the cost of the sidewalk assessment (had the City completed the work). Retaining wall materials and construction shall be approved by the City Engineer.

<u>Large Lot Adjustment</u>. For large lots in the City zoned for single family or two family residential the additional costs for special provisions as described above shall be limited to 1.75 times the cost of sidewalk for a standard residential lot of 132 feet of frontage. The parcel shall be assessed for the entire frontage for sidewalk construction as described above under assessment of costs. Only the additional costs for special provisions shall be subject to the adjustment described in this paragraph.

Multi-frontage lots will be responsible for all frontages.

<u>Exceptions</u>: The only exception to this Policy shall be in locations where the topography is such that sidewalk construction is not feasible or where the cost to construct sidewalk would be excessive, as determined by the City Engineer.

Excessive Costs. Should the costs of construction exceed three (3) times the cost of the contractors cost for sidewalk reconstruction as determined in the current years maintenance bids, the project will usually be considered to be infeasible to undertake; however, the Council may determine that a project is so important that it may exceed this limit.

Financing. Sidewalk assessments may be paid under one of the following alternatives:

- Pay in full within 30 days to avoid interest charges.
- 3-year installment agreement for assessments between \$500 and \$1,000. Pay 1/3 down within 30 days of date of invoice and sign an installment agreement. Interest rate will be the prime lending rate at the time of the agreement plus 1½%. Interest is charged starting 30 days after the invoice date and future installments will be entered on the tax roll for collection.
- 5-year installment agreement for assessments over \$1,000. Pay 1/5th down within 30 days of date of invoice and sign an installment agreement. Interest rate will be the prime lending rate at the time of the agreement plus 1½%. Interest is charged starting 30 days after the invoice date and future installments will be entered on the tax roll for collection.

- 10-year installment agreement for assessments over \$10,000. Pay 1/10th down within 30 days of date of invoice and sign an installment agreement. Interest rate will be the prime lending rate at the time of the agreement plus 1½%. Interest is charged starting 30 days after the invoice date and future installments will be entered on the tax roll for collection.
- Community Development Block Grant for assessments over \$1,000. Applicants must be at 80% or less of median income for Sauk County and meet program qualifications. Funds are subject to availability. Application must be made to Community Development Authority and verification of application must be delivered to City Treasurer within 30 days of date of invoice. Interest will be waived during application process.
- Financial Hardship. A property owner who has a household income which is 80% or less of the medium income in Sauk County based upon the current published figures, or who is not eligible for a Community Development Block Grant loan as stated above, shall be eligible to repay the City for the assessment at the rate of \$100 per year or 5% of the toal assessment, whichever is greater, plus annual interest of 1% until paid. The Community Development Authority staff shall verify low-income eligibility and shall make a recommendation as to such eligibility to the City Council. If there is an outstanding balance at the time of sale or transfer of the property, except between spouses, the remaining balance shall become due. A property owner requesting financial hardship eligibility shall submit a copy of their most recently filed current year State of Wisconsin tax return if filed, or otherwise show proof of annual household income.

For each year ending in either 5 or 0, the property owner shall re-submit proof of financial hardship to the City. If the property owner continues to qualify under the policy quidelines, the hardship status will remain. If the property owner does not qualify, the remaining balance of the assessment shall be paid pursuant to an Installment Agreement, the term of which will be determined based on said remaining balance as outlined above.

• <u>Balance on Tax Roll</u>. If the property owner does not pay in full within 30 days from the invoice date or qualify for an installment plan, the entire balance will be placed on the next tax roll for collection with interest added at 1% per month.

Ownership Adjacent To Town Parcels. When a landowner owns land adjacent to town parcels and has a driveway that enters the street going to the town parcel the property owner will be required to place sidewalk along the frontage of the street to a point that will access the driveway of the owners parcel in question. Where there is no driveway it shall be at the discretion of the council where the sidewalk shall end.

Three-Sided Lots. In those areas where new sidewalks are to be installed, if a sidewalk is to be installed on a lot, which has frontage on three sides, the property owner will be responsible for the street in front of the house and to the side of that frontage. The City will pay for the initial sidewalk construction on the street that would be to the rear of the house. Future maintenance of all sidewalks shall be the responsibility of the property owner.

2.	The amended ordinance and Policy shall take effect upon passage and publication as provided by law.

Members Present: Petty, Thurow, Kent

Absent:

Others Present: Mayor Palm, Adm. Downing, Atty. Truman, B. Zeman, C. Haggard, M. Hardy, T. Pinion

<u>Call to Order</u> –Ald. Petty called the meeting to order at 6:15 p.m. noting compliance with the Open Meeting Law. Moved by Kent, seconded by Thurow to approve the minutes of February 25, 2020 and carried unanimously. Moved by Kent, seconded by Thurow to approve the agenda and carried unanimously.

Action Items

- a) <u>Accounts Payable</u> Moved by Kent, seconded by Thurow to recommend to Council for approval of the accounts payable for \$704,498.36. Motion carried unanimously.
- b) 4th Qtr. 2019 Budget Amendments The Committee reviewed the amendments as presented. Finance Director C. Haggard explained the budget amendments and the difference between supplemental budget, a new source of revenue to source a new expense during the year, and the budgetary transfers, transfers between one line item to another. Moved by Kent, seconded by Thurow to recommend to Council for action. Motion carried unanimously.
- c) Financing Kayak Launch C. Haggard explained that she is looking for permission to pursue the most cost efficient way to finance the project overrun of about \$57,000; whether it be a line of credit or other short term financing. M. Hardy noted that a partial grant was already received for this project. With the cost overrun, we can ask for a grant amendment but there is no guarantee. M. Hardy has already reached out to several groups in the Baraboo area looking for options to help fund this project. Moved by Kent, seconded by Thurow to recommend to Council for action. Motion carried unanimously.
- d) Engineering Contract of Kayak Launch M. Hardy noted that this originally an intergovernmental project between the City and West Baraboo with West Baraboo holding the grant. Because we only received a partial grant, it was decided that the Kayak Launch was the best use of these funds. The grant has been transferred to the City. The original engineering contract through the Village of West Baraboo was with MSA. The \$19,000 for the engineering portion will complete this project. The grant administration will be done by M. Hardy. Moved by Kent, seconded by Thurow to recommend to Council for action. Motion carried unanimously.
- e) Construction of Kayak Launch M. Hardy stated that four bids were received for this project. The low bid of \$197,939 from Meise Construction, Inc. is being recommended for approval. Moved by Kent, seconded by Thurow to recommend to Council for action. Motion carried unanimously.
- f) 2019/2020 City Budget C. Haggard explained that these are projects from 2019 that did not come to completion. We are looking for permission to transfer these funds from 2019 to 2020. Moved by Kent, seconded by Thurow to recommend to Council for action. Motion carried unanimously.

It was moved by Kolb, seconded by Wedekind to approve the design and placement of new Wayfinding Signs. Motion carried unanimously.
- e. Review and recommend adopting certain Sections of Chapters 940, 941, 942, 943, 944, 966, and 961 of the Wisconsin State Statutes by reference in Chapter 9 – Orderly Conduct of the City's General Code of Ordinances – Chief Schauf said that when police are investigating incidents, they can take enforcement as an ordinance violation, which is the City Code, or they can take enforcement under criminal statutes. He said that the burden for proof for criminal is beyond a reasonable doubt and that sometimes can be difficult to achieve, whereas, for a City ordinance violation the burden of proof is clear and convincing. He said by having these offenses added to the City Code would give the department the ability to charge some of these offenses as ordinance violations without having the higher burden of proof. He said additionally, one of the options that this provides is the ability to keep kids and/or first time offenders out of the criminal justice system, but hold them accountable by issuing charges appropriately, and it would then be handled by the City Attorney's office, who then has a number of options through the prosecution that they can handle. He said it this could be a way to hold a first time offender accountable, but not have them put into the criminal system as an offender. He said that the Statutes that are in the packet and being recommended for adoption by the Code are offenses that the police department commonly deals. It was stated that these offenses would all be under forfeitures and be at the discretion of the officer. Discussion then took place regarding non-payment of forfeitures. It was moved by Kolb, seconded by Wedekind to recommend adopting certain sections of Chapters 940, 941, 942, 943, 944, 966, and 961 of the Wisconsin state Statutes as presented. Motion carried unanimously.
- f. Review and recommend approval of a Memorandum of Understanding for Mutual Aid and Fire suppression services between the Baraboo Fire Department and the Wisconsin Department of Natural Resources for compensation for fishing forest fires or prescribed burn assistance Kevin Stieve presented the information to the Committee. He said that the City of Attorney as reviewed this and feels comfortable with it. It was moved by Kolb, seconded by Wedekind to recommend approve of MOU between the Baraboo Fire Department of the Wisconsin DNR as presented. Motion carried unanimously.
- g. Review and recommendation to proceed with acquisition and or demolition of the former St. Mary's Ringling Memorial Hospital at 1208 Oak Street Pinion presented the background stating that this property has been a thorn for the Police Department and the City for several years. He said that there is money in the 2020 budget to take care of this public nuisance. He said that there are many steps to go through and is not sure that it will be done in this calendar year. He said that with the Council's blessing, the City would begin the process. It was moved Kolb, seconded by Wedekind to recommend proceeding with the acquisition and/or demolition of the property at 1208 Oak Street. Motion carried unanimously.
